

# Tioga County, NY 2022-2024

## Community Health Improvement Plan

## Acknowledgements

The Tioga County Community Health Improvement Plan was developed with the collaboration of many partners and multiple agencies. This plan is the result of many conversations and brainstorming exercises with the intent to improve the health of our residents.

Meagan Mertson, Early Intervention Service Coord.  
Katie Wait, Public Health Educator  
Heather Vroman, Deputy Public Health Director

### What is a Community Health Improvement Plan?

A Community Health Improvement Plan, or CHIP, is a long-term, systematic effort used to address needs identified in the Community Health Assessment.

Updated every three years, the CHIP evolves to meet the current needs of the community. It is used by local health and human service agencies, along with community partners, to set priorities and coordinate resources to address top health concerns.

# Community Health Improvement Plan Development

## **Identifying Stakeholders**

- Identifying key stakeholders was among the initial steps taken to complete the CHIP. Due to the lack of a hospital within Tioga County, it was important to identify organizations and agencies that are vital to the health of the community. Stakeholders were identified based on past participation in the 2019-2021 Community Health Improvement Plan, as well as from new partnerships that had formed during the COVID-19 pandemic.

## **Identifying Priority Areas**

- A survey was sent to all members of the steering committee inquiring what they believed to be the top three health concerns in Tioga County. Collectively, their top health concerns were: mental health issues and lack of support/services, substance abuse, and transportation related issues. The steering committee was also asked to rank the five priority areas in order from most to least important for the health of Tioga County residents. Based on their responses the priority areas, in order from most to least important were: Promote Well-Being & Prevent Mental & Substance Use Disorders; Promote Healthy Women, Infants, & Children; Preventing Chronic Disease; Promote a Healthy & Safe Environment; and Prevent Communicable Disease. Feedback supporting the rankings was also solicited during an initial steering committee meeting held on June 23, 2022.
- Data from the Community Health Assessment survey was also utilized to identify our top priority areas. The survey received over 1,000 responses from residents of Tioga County. The survey asked residents to list the five priority areas in order from 1 to 5; with 1 being the most important for the health of Tioga County and 5 being the least. In order from 1 to 5 the results were: Prevent Chronic Disease; Promote Healthy & Safe Environment; Promote Well-Being & Prevent Mental & Substance Use Disorders; Promote Healthy Women, Infants, and Children; and Prevent Communicable Diseases.
- Responses from both surveys were taken into consideration and the following priority areas were selected: **Promote Healthy Women, Infants, and Children; Promote Well-Being & Prevent Mental & Substance Use Disorders; and Prevent Chronic Diseases.** The priority area of Promoting Healthy Women, Infants, and Children will address multiple disparities within the county (see work plan).

## **Selecting Goals, Objectives, and Interventions**

- After the priority areas were selected, a second steering committee meeting was held at a local venue on August 16, 2022. The event kicked-off with sharing the Community Health Assessment's (CHA) preliminary community survey findings. With knowledge of the survey findings, participants were able to have informed conversations and brainstorming sessions when identifying health improving tactics.
- Attendees were placed into three groups determined by the priority area that their work most closely aligned with. Using the goals, objectives, and interventions established by the NYS Prevention Agenda, the groups chose the most appropriate interventions based on the programs/services their organization or agency currently offer, or have the capacity to offer in the near future.

## Priorities Areas

Promote Healthy Women, Infants and Children

Promote Well-being and Prevent Mental  
and Substance Use Disorders

Prevent Chronic Diseases

## Monitoring, Reporting, and Maintaining Engagement

The CHIP steering committee is tasked with oversight of the Community Health Improvement Plan. With members representing the Public Health Department, local hospital systems, community-based organizations and agencies, the committee is well-equipped with qualified informers.

Tioga County Public Health will work to engage the committee by hosting regular meetings to solicit feedback and provide updates. In addition to the meetings, TCPH will maintain contact with steering committee members through email as questions or challenges present themselves.

Monitoring of activities will occur during regularly scheduled meetings. Progress reports will include identified successes and challenges presented by the intervention's lead agency. Support from the partnership will aid in addressing identified challenges and analysis of problems with determination of action steps to remedy the issue. The proposed family of measures will provide the barometer to evaluate progress. Additionally, activity reporting will be completed and submitted to New York State Department of Health annually.

It is the responsibility of the steering committee to revise and update the Community Health Improvement Plan-Work Plan as deemed necessary.

## Dissemination Process

The Community Health Assessment Update, Community Health Improvement Plan, and the Executive Summary will be distributed to local agencies and town and village halls at local meetings, via mail, and through in-person deliveries. The documents will be made available to the public at [ph.tiogacountyny.gov](http://ph.tiogacountyny.gov).

# WORK PLAN

Tioga County  
Community Health Improvement Plan

Priority: Prevent Chronic Diseases			
Focus Area 1: Healthy Eating and Food Security			
Goal 1.2 Increase skills and knowledge to support healthy food and beverage choices	Interventions	Family of Measures	By December 2023 we will have completed...  At least 1 workplace in Tioga County will have implemented a policy to promote practices to reduce access to and consumption of SSBs.
Adopt policies and implement practices to reduce (over)consumption of sugary drinks.	Creating Healthy Schools & Communities Grant - Implementing Food Service Guidelines for local worksites. Increase availability of healthy food options in multiple venues (vending machines, cafeterias, snack bars, etc.).	Input Measures: # of workplaces approached by CHSC grant staff offering education on the benefits of implementing practices to reduce sugar sweetened beverages (SSBs)  Output Measure: # of workplaces in Tioga County that adopt practices (signage, healthier options) to reduce SSB consumption  Short-term Outcome: # of employees from workplace(s) reporting they intend to choose healthier drink options  <a href="https://www.health.ny.gov/prevention/obesity/prevention_activities/chsc/">https://www.health.ny.gov/prevention/obesity/prevention_activities/chsc/</a>	Objective: Decrease the percentage of adults who consume one or more sugary drinks per day (among all adults)  Who Tioga County Public Health in collaboration with the Broome County Health Department Creating Healthy Schools and Communities grant staff.  Long-term Outcome: Decrease in the percentage of obese adults

Tioga County  
Community Health Improvement Plan

Goal 2.0 Reduce obesity and the risk of chronic diseases		Objective: Decrease the percentage of children with obesity (among public school students in NYS exclusive of New York City)	
<b>Interventions</b>	<b>Family of Measures</b>	<b>By December 2023 we will have completed...</b>	<b>Who</b>
Multi-component school-based obesity prevention interventions. Coordinated Approach to Childhood Health (CATCH) program.	<p><b>Input Measures:</b> # of schools offered to be CATCH trained</p> <p><b>Output Measure:</b> # of schools with CATCH trained staff</p> <p>The mission of CATCH is, “to empower school communities to cultivate Whole Child wellness as a lever for student success and social equity. The Foundation links underserved schools and communities to the resources necessary to create and sustain healthy change for future generations.”</p> <p><a href="https://catch.org/">https://catch.org/</a></p>	<p>1 school in Tioga County will be CATCH trained.</p> <p><b>Short-term Outcome:</b> # of students educated on the importance of proper nutrition and education</p> <p><b>Intermediate Outcome:</b> # of students reporting an increase in skills needed to adopt to a healthy lifestyle</p> <p><b>Long-term Outcome:</b> Decrease in the percentage of children with obesity</p>	Cornell Cooperative Extension/SNAP-Ed NY Nutrition Educator
		<b>Focus Area 2: Physical Activity</b>	Objective: Increase the percentage of high school students who were physically active for a total of at least 60 minutes/day on all 7 days (among all high school students)
<b>Interventions</b>	<b>Family of Measures</b>	<b>By December 2023 we will have completed...</b>	<b>Who</b>

## Tioga County Community Health Improvement Plan

<p>Improve community environments that support active transportation and recreational physical activity for people of all ages and abilities.</p> <p>Creating Healthy Schools &amp; Communities Grant - School Based Wellness Policies for Comprehensive School Physical Activity Programs.</p> <p><a href="https://www.health.ny.gov/prevention/obesity/prevention_activities/chsc/">https://www.health.ny.gov/prevention/obesity/prevention_activities/chsc/</a></p>	<p><b>Input Measures:</b> # of schools approached to complete a School Wellness policy</p> <p><b>Output Measure:</b> # of schools that adopt a School Wellness policy</p> <p><b>Short-term Outcome:</b> # of students with increased access to opportunity for physical activity</p> <p><b>Intermediate Outcome:</b> # of students reporting they are physically active for at least 60 minutes per day</p> <p><b>Long-term Outcome:</b> Decrease in obese high school students</p>	<p>At least 1 school will adopt a School Wellness policy.</p> <p>Tioga County Public Health in collaboration with the Broome County Health Department Creating Healthy Schools and Communities grant staff.</p>
<b>Focus Area 3: Tobacco Prevention</b>		
<p>Goal 3.3 Eliminate exposure to secondhand smoke</p>	<p>Objective: Decrease the percentage of youth who were in a room where someone was smoking on at least 1 day in the past 7 days.</p>	<p><b>Interventions</b></p> <p>Through Tobacco-Free Broome/Tioga - provide education to elected officials and the community on the importance of the</p> <p><b>Family of Measures</b></p> <p><b>Input Measures:</b> # of facilities approached to adopt Tobacco-Free policies</p> <p><b>Output Measure:</b> # of Tobacco-Free policies adopted</p> <p><b>By December 2023 we will have completed...</b></p> <p>At least 1 facility in Tioga County will adopt a Tobacco Free policy.</p> <p><b>Who</b></p> <p>Tobacco Free Broome-Tioga grant staff.</p>

Tioga County  
Community Health Improvement Plan

<p>following initiatives: Tobacco free outdoor policies, tobacco retail environment policies, smoke free public housing policies.</p> <p>Work with elected officials and local facilities to implement tobacco-Free policies.</p>	<p><b>Short-term Outcome:</b> # of facilities reporting enforcement of their Tobacco-Free policy</p> <p><b>Intermediate Outcome:</b> # of facilities reporting decreased tobacco use on their property</p> <p><b>Long-term Outcome:</b> Decrease in tobacco use and exposure to secondhand smoke.</p>	<p><b>Priority: Promote Well-Being and Prevent Mental and Substance Use Disorders</b></p> <p><b>Focus Area 2: Prevent Mental and Substance User Disorders</b></p> <p>Goal 2.1: Strengthen opportunities to build well-being and resilience across the lifespan</p> <p><b>Interventions</b></p> <p>Implement School based prevention: Implement/Expand School-Based Prevention Services - Teen Intervene is a brief, early intervention program for 12- to 19-year-olds who display the early stages of alcohol or drug</p> <p><b>Input Measures:</b> # of students referred to Teen Intervene</p> <p><b>Output Measure:</b> # of students who complete Teen Intervene</p> <p><b>Short-term Outcome:</b> # of students educated on the harms of using alcohol and</p>
		<p><b>Priority: Promote Well-Being and Prevent Mental and Substance Use Disorders</b></p> <p><b>Focus Area 2: Prevent Mental and Substance User Disorders</b></p> <p>Goal 2.1: Strengthen opportunities to build well-being and resilience across the lifespan</p> <p><b>Interventions</b></p> <p>Implement School based prevention: Implement/Expand School-Based Prevention Services - Teen Intervene is a brief, early intervention program for 12- to 19-year-olds who display the early stages of alcohol or drug</p> <p><b>Input Measures:</b> # of students reached through Teen Intervene</p> <p><b>Output Measure:</b> Reduce the percentage of youth in grades 9-12 reporting the use of alcohol on at least one day for the past 30 days by 10% from 27.1% in 2017 to 24.4%</p> <p><b>By December 2023 we will have completed...</b></p> <p><b>Who</b></p>

Tioga County  
Community Health Improvement Plan

<p>involvement. Integrating stages of change theory, motivational enhancement, and cognitive-behavioral therapy, the intervention aims to help teens reduce, and ultimately eliminate, their substance use.</p>	<p>drugs.</p> <p><b>Intermediate Outcome:</b> # of students who successfully complete Teen Intervene and use the skills learned throughout their sessions</p> <p><b>Long-term Outcome:</b> Decrease in the percentage of students in grades 9-12 reporting the use of alcohol and other drugs.</p>	<p>Goal 2.2 Prevent opioid overdose deaths</p>	<p>Objective: Reduce the age-adjusted overdose deaths involving any opioid by 7% to 14.3 per population of 100,000.</p> <p><b>Who</b></p>
<p><b>Interventions</b></p> <p>Increase availability of/access to overdose reversal (Naloxone) trainings to prescribers, pharmacists and consumers</p>	<p><b>Family of Measures</b></p> <p><b>Input Measures:</b> # of trainings</p> <p><b>Output Measure:</b> # of residents trained</p> <p><b>Short-term Outcome:</b> # of individuals educated on steps to take in the event of an overdose</p> <p><b>Intermediate Outcome:</b> # of Narcan kits successfully used to prevent overdose deaths</p> <p><b>Long-term Outcome:</b> Decrease in overdose deaths from opioids</p>	<p><b>By December 2023 we will have completed...</b></p> <p>At least 4 overdose prevention trainings.</p>	<p>CASA-Trinity</p>

Tioga County  
Community Health Improvement Plan

<p><b>Goal 2.2 Prevent opioid overdose deaths</b></p>	<p>Objective: Increase the age-adjusted rate of patients who received at least one Buprenorphine prescription for opioid use disorder by 20% to 415.6 per population of 100,000.</p>		
<b>Interventions</b>	<b>Family of Measures</b>	<b>By December 2023 we will have completed...</b>	<b>Who</b>
<p>Increase availability of/access and linkages to medication-assisted treatment (MAT) including Buprenorphine. MAT programming will be implemented in the Tioga County Jail.</p>	<p><b>Input Measure:</b> # of prisoners offered MAT <b>Output Measure:</b> # of prisoners receiving MAT <b>Short-term Outcome:</b> # of prisoners reporting they will use techniques they learned through MAT <b>Intermediate Outcome:</b> # of prisoners reporting a decrease in opioid use <b>Long-term Outcome:</b> Decrease in rates of opioid overdose deaths</p>	<p>At least 5 prisoners at the Tioga County jail will receive MAT.</p>	<p>Tioga County Mental Hygiene Department</p>
<p><b>Goal 2.3 Prevent and address adverse childhood experiences</b></p>	<p>Objective: Increase communities reached by opportunities to build resilience by at least 10%.</p>	<b>By December 2023 we will have completed...</b>	<b>Who</b>
<b>Interventions</b>	<b>Family of Measures</b>	<b>By December 2023 we will have completed...</b>	
<p>Grow resilient communities through education, engagement, activation/mobilization and celebration.</p> <p>Will be completed through Community Resilience</p>	<p><b>Input Measure:</b> # of CRM trainings <b>Output Measure:</b> # of agencies that complete the trainings <b>Short-term Outcome:</b> # of agencies reporting they have utilized CRM</p>	<p>CRM Training completed with at least 2 additional agencies in 2023.</p>	<p>CASA-Trinity</p>

Tioga County  
Community Health Improvement Plan

<p>Model (CRM) trainings to help create "trauma-informed" and "resilience-focused" communities that share a common understanding of the impact of trauma and chronic stress on the nervous system.</p> <p><a href="https://www.traumaresourcesinstitute.com/crm/">https://www.traumaresourcesinstitute.com/crm/</a></p>	<p><b>Intermediate Outcome:</b> # of individuals reporting they have utilized skills from CRM to restore or increase resiliency following trauma</p> <p><b>Long-term Outcome:</b> Decrease in reported adverse childhood experiences</p>	<p>Goal 2.5 Prevent suicides</p> <p>Objective: Reduce suicide attempts by New York adolescents (youth grades 9 to 12) who attempted suicide one or more times in the past year by 10% to no more than 9.1%.</p>
<p><b>Interventions</b></p> <p>Strengthen access and delivery of suicide care - Zero Suicide: Zero Suicide is a commitment to comprehensive suicide safer care in health &amp; behavioral health care systems.</p>	<p><b>Family of Measures</b></p> <p><b>Input Measures:</b> # of staff trained on CALM Means restriction from the Zero Suicide Institute</p> <p><b>Output Measure:</b> All staff trained; new hires will be trained also in CALM Means restriction</p>	<p><b>By December 2023 we will have completed...</b></p> <p>All new MH staff will be trained, or in the process of being trained, on "Counseling on Access to Lethal Means" (CALM).</p> <p><b>Short-term Outcome:</b> Strengthen access and delivery of suicide care-Zero Suicide: All who come for Will be completed through Mental Hygiene's Open Access Walk-in Clinics staffed with screeners to</p>

Tioga County  
Community Health Improvement Plan

complete suicide risk assessments.	<p>intake will be screened for Risk (both clinic open access and school based) *target grades 9-12</p> <p><b>Intermediate Outcome:</b> # of new clients (students in grades 9-12) who were flagged as high risk at intake and participated in therapies</p> <p><b>Long-term Outcome:</b> # of students who remained high risk vs. removed from high risk due to having therapy and after a period of scoring low on the risk assessment</p>	<p>Goal 2.5 Prevent suicides</p> <p>Objective: Reduce the age-adjusted suicide mortality rate by 10% to 7 per population of 100,000.</p> <p><b>By December 2023 we will have completed...</b></p> <p><b>Who</b></p> <p>Tioga County Suicide Coalition</p>
<b>Interventions</b>	<b>Family of Measures</b>	
Identify and support people at risk: Will be completed through Question, Persuade, and Refer (QPR) training.  <a href="https://qprinstitute.com/">https://qprinstitute.com/</a>	<p><b>Input Measures:</b> # of QPR trainings offered</p> <p><b>Output Measure:</b> # of individuals trained in QPR</p>	<p>At least 1 additional QPR trained member of the suicide coalition.</p> <p><b>Short-term Outcome:</b> # of individuals reporting they can identify early warning signs of suicide and prevention interventions</p> <p><b>Intermediate Outcome:</b> # of</p>
