- Sanitary Code Revision-Establish Subcommittee

Informational

- Agency Updates – April 2024

Additional Items

- None

Next Meeting Information

- Next Meeting is on June 20, 2024

TIOGA COUNTY BOARD OF HEALTH

MEETING MINUTES April 18, 2024

BOARD MEMBERS PRESENT (All Attended In Person):

T. Hills, DVM, President
W. Simmons, Vice President (Departed at 8:53 a.m.)
T. Nytech, DVM
W. Standinger III, Legislator
J. Raftis, DO, FACEP
T. Leary, FNP
R. Kapur-Pado, DO (Arrived at 7:33 a.m.)

ABSENT:

None

OTHER(S) PRESENT:

H. Vroman, Public Health Director
A. Reigelman, Secretary
P. DeWind Esq., County Attorney (Arrived at 7:38 a.m.)

GUESTS:

Denis McCann, Director of Administrative Services (Departed at 8:02 a.m.)

CALL TO ORDER: at 7:30 a.m. by Dr. Hills.

PRESENTATION: Mr. McCann provided a financial summary of actual amounts for 2023 for Tioga County Public Health (distributed handout and summarized).

- He discussed all expenses, breaking down and explaining allocation of all resources (Infrastructure, Program, Salary and Fringe Benefits), largest being Program expenses at 60% of the total amount, which covers advertising, contracts, program supplies and trainings. He also explained revenue and funding sources and provided breakdown (fees, State/Federal Aid, grants).
 - Board members inquired how revenue/reimbursement is received for Preschool/Special Education Program.
 - Mr. McCann explained that Public Health is able to bill for Medicaid /insurances and New York State reimburses at 59.5% of net cost (after reducing Fee revenue from costs).
 - General discussion/explanation of the 3-5 Preschool/Special Education program, Transportation assistance and Early Intervention program.
 - Dr. Nytech inquired if there were any shortfalls. Mr. McCann stated that with Net Deficit funding (which almost everything in Public Health is), you have to spend the funds first and then be reimbursed. In effect, if you do not spend the funds then you do not get reimbursed. If you spend more than the grant amount, the overage then can be claimed by other revenue sources, most commonly State Aid.
 - Dr. Raftis inquired if grants are renewable and how does Public Health apply for grants (who applies?). Mr. McCann and Ms. Vroman explained that typically the larger grants have 5-year terms but are expected to be renewable. Smaller grants (such as through Non-Profit foundations) could be shorter terms. For grant application submittals, it is mainly a team approach. If certain staff members are more invested in a grant, they will lead in the application submittal, but still a team approach of putting together budget or if other information is required. Some grants also require Legislative approval through resolution.

TIOGA COUNTY BOARD OF HEALTH

- Ms. Vroman added that none of our staff's salaries are 100% dependent on grant funding (i.e. Broome County). Mr. McCann discussed our process versus Broome County's and noted that our module does take work to maintain.
- Dr. Raftis also inquired how Tioga Public Health's financial situation compares to other similar sized counties within the State. Mr. McCann stated that Tioga is in very good shape, and that no two health departments are the same in how they are run. We maximize our funding source. Attribute Tioga's success to how we are run fiscally as well as the support of the Legislature and Board of Health. Mr. McCann briefed the Board on the historical running of Tioga County Public Health and stated that he learned that in order for Public Health to be a successful operation, there needed to be a good working relationship between fiscal and the Public Health Director; which we have in Tioga.

OLD BUSINESS:

- Meeting Minutes: No discussion; motion to approve prior minutes made by Mr. Simmons; seconded by Dr. Kapur-Pado, all were in favor, none opposed, motion approved.
- Enforcements: Ms. Vroman provided additional information on the enforcements.
 - Dr. Nytech inquired if there was a regulation on covering beards/wearing hair nets in food preparation. Ms. Vroman stated that she could find out if it is a requirement in Public Health Law and let the Board know.
 - Legislator Standinger inquired on the status of the stipulation that required a hearing. Ms. Vroman stated that a memorandum of understanding has been sent to the alternate hearing officer and waiting to hear back at this point. County Attorney DeWind stated that there is still some preparation work to be done. Dr. Nytech inquired if the hearing officer had to be an attorney. Ms. Vroman explained that hearing officers could be anyone, does not have to be an attorney. She stated that in looking at the timeline of this stipulation (as the violation occurred in October), she is concerned about reaching the end of the timeframe needed to complete the hearing by. Ms. Vroman stated that she has reached out to the State with this question. Ms. Vroman added that the establishment in question has had another violation, for selling tobacco products to a minor, but does not foresee an issue with them fighting this.

NEW BUSINESS:

- The Board of Health Credentialing Committee has approved our two medical consultants. We will be completing the recredentialing of Tioga County Public Health's Dentist, Dr. Sarnicola, in September.
 - Dr. Kapur-Pado asked County Attorney DeWind on the rules of Medical Malpractice, and the insurance coverage under Tioga County.
- Rabies Control Order- An individual from the Tioga County Fair Board has expressed concern about the portion of the Rabies Control Order asking for exhibitors to collect the names and contact information of the attending public in advance. Dr. Hills provided background on the order and the inclusion of this section which was to have the list of possible exposures within 24 hours after initial exposure.
 - Ms. Vroman contacted a State veterinarian, who is also aware of Tioga County's Rabies Order and indicated that vaccination of animals is important, has seen minimal breakthrough with vaccination of off-label animals. The State veterinarian stated that it is not typically necessary to collect information prior to exposure. The State Fair does not have this piece. The veterinarian forwarded information to Ms. Vroman and stated that she can share with anyone who is interested. As Public Health Director, feel that just listing mandatory vaccination might be a better route to go. Now, have better mechanisms in place for investigation and tracking, and do not foresee the issues that occurred before (rabid goat-Tioga County Fair).
 - Board members discussed. Various members provided background on the rabid goat case/scenario that occurred. Opinions shared on protocols that should be taken. Discussed pros and cons of keeping the section on gathering contact information prior to

TIOGA COUNTY BOARD OF HEALTH

exposure. Ms. Vroman proposed eliminating this section from the order, and added that there needs to be consistency (as there are other scenarios than the County Fair, i.e. animals in schools, petting zoos, etc.)

- Ms. Vroman briefed the Board on a current outbreak of Hepatitis A in Yates County. Explained full scenario and compared this to a rabies exposure. Stated that if an exposure were to happen again, feel it would be handled better. Discussion of level of risk (risk management-emergency management).
- Dr. Hills stated that the Fair is in August, there is time to have full review of the Rabies Control Order. Dr. Nytych motioned to move this item to the next meeting under Old Business. Dr. Hills agreed and stated that he, Ms. Vroman and County Attorney DeWind will discuss and bring modification to the next meeting. All members were in favor, none opposed, motion approved.

INFORMATIONAL: Ms. Vroman shared updates.

- **Public Health News:**
 - Additional Information on Hep A Case- Individual is hospitalized. Yates County has activated their volunteers for the POD they are holding this afternoon. Working with State. It is a State-wide alert. We shared Yates County press release on Facebook.
 - Update on Measles- Three confirmed cases so far in New York State. Tioga County Public Health Emergency Preparedness Team has been meeting regularly to prepare and ensure staff is up to date with current information. In process of renewing agreements for POD sites.
 - Dr. Nytych inquired if it is Measles-Rubella or German Measles- Dr. Raftis stated that it is a different virus than Rubella. It is true Measles. Ms. Vroman added that she can send out information on this to the Board.
 - Dr. Nytych has been sending updates on the Bird Flu (Avian Flu). Confirmed case in Texas, and there has been a spill over to cattle. Ms. Vroman can send information from the State on this.
- **Staffing Update:**
 - Have filled one Office Specialist position, will be starting on Monday. Have open positions for another Office Specialist, Public Health Educator and Environmental Health Director (both the Public Health Educator and Environmental Health Director positions were approved by the Legislature at the beginning of this month).
 - Have received applications for the Public Health Educator position.
- **Accomplished Tasks:**
 - Met with superintendents of schools which was a good renewal meeting. Provided updates on staffing and discussed possible collaborations. Ms. Vroman stated that she intends to have monthly communication with superintendents and will be meeting more often.
- **In Progress Tasks:**
 - Strategic Planning is going well, surveys will be going out to staff regarding Mission/Vision/Values, Staff engagement, and training needs.
 - Medical Reserve Corps (MRC)- Leadership of Public Health's MRC group has changed. Have a distribution list of over 80 volunteers, but probably only 12 individuals are readily engaged. Letting members know in case interested or if anyone knows anyone who may be interested. Ms. Vroman stated that she can send information on signing up for MRC after the meeting. Distributed flyers for an MRC training being offered in May, lots of information covered. In jeopardy of cancelling because of lack of attendees. Stressed that there is no minimum commitment, just trying to get more people involved. Do not need to have medical background!

TIOGA COUNTY BOARD OF HEALTH

ADDITIONAL ITEMS:

- Ms. Vroman stated that the Public Health Emergency Preparedness Coordinator is not able to attend next month's meeting to present on the COVID After Action Report. Would like to propose having her attend in June instead of having the Management Team present. The Board agreed.
- Dr. Raftis inquired if Mental Hygiene is its own entity. Ms. Vroman/County Attorney DeWind explained that Mental Hygiene is its own County department, have clinic in this building and offsite in Waverly. Can see if someone from Mental Hygiene can come and present next month.
- Would also like to propose having Public Health Educator, Ms. Bennett, come and present in July on the updates to the Lead program. The Board agreed.

Meeting adjourned at 9:38 a.m.

Minutes respectfully submitted by Abigail Reigelman.

AGENCY REPORT

March 21 -April 24, 2024

Highlights

- We observed Public Health Week (the first week of April) celebrating staff achievement with various events. Thank you to the Admin Team for putting it all together!
- We welcomed Misty Malmstrom, our new Office Specialist III!
- Katie Searles was nominated Public Health Employee of the 1st Quarter of 2024!
- Purchased a new pharmaceutical grade freezer to store our frozen vaccine.
- We are working with Mental Hygiene in transitioning the ASAP Coalition and applicable grants that fund substance use prevention to be under our department.
- Despite it being a cloudy day, the health education team did a lot of outreach leading up to the eclipse to prepare our community on the importance of wearing eclipse glasses and preparing for an increase of traffic in the region due to the event. We held a food drive for Health & Human Services employees to be able to donate non-perishables to receive eclipse glasses. Donations were delivered to Catholic Charities.
- We hosted a Rabies Vaccination Clinic in Newark Valley, which ended up being our second largest clinic, vaccinating 212 pets! We were able to show off our new “Public Health On The Go” trailer with its new detailed exterior wrap design. Health Education set up an outreach table distributing Sun Safety Bags, Tick Removal Kits, Medication Lock Boxes, Pet Waste Disposal Bags and more!
- We held our Spring Clean-Up Day for Public Health and were able to organize/clean a few spaces, archive charts for various programs, and throw out a lot of unnecessary items. Lots accomplished!

Health Education

- Met with the new Tioga Opportunities Health Educator to educate on the programs and services we offer and to discuss future collaborations.
- For National Nutrition Month in March, one health educator hosted a healthy eating activity at the Family Resource Center in Spencer.

Environmental Health

- Cornell University has agreed to fund a Lead Renovation, Repair and Painting training in Tioga County. We will host the training on June 7th. Attendees will include contractors, landlords and homeowners who may complete home renovations due to lead paint hazards. We are trying to fill spots now!
- Our Environmental Health Sanitarian met with Chenango County to observe how they complete lead inspections.
- We were approved for Aquaphor protection used for decommissioned wellhead caps.
- One of our Sanitarians is working with a local children’s camp on proper requirements for a new wilderness water area (for canoeing only).
- Working with School districts in completing second round of lead/copper testing.
- In Weights and Measures, gas pump season has begun!

Patient Services (EI, Dental, Clinic)

- Early Intervention Service Coordinator delivered goodie/educational Spring Baskets to their kiddos.
- We received notification that the launch of the EI Hub (the new Early Intervention electronic application) has been postponed until October 2024.

- As part of our readiness to handle any outbreaks of either measles or Hepatitis A, we met with the UHS team to discuss collaborations.
- Our Public Health Nurse (PHN) has done several outreaches, including meeting with Tioga County provider offices and delivering our 2023 Communicable Disease Report and visiting area emergency departments to provide education on Rabies Post Exposure Prophylaxis (RPEP) and answer any questions.
- Our PHN and one of our EH Sanitarians attended a foodborne illness tabletop exercise which they found helpful in preparing for any future foodborne related outbreaks.
- The dental van completed services at Nathan T. Hall Elementary School and moved to the Candor School District. Numbers were lower than usual at Newark Valley Middle and elementary School, so we are brainstorming ideas to increase participation in the 24/25 school year.

Administrative Services

- Our PHD did a radio interview to share what's happening at the health department and some of our current projects.
- For Strategic Plan, the PHD has been meeting with various groups to update them on current Public Health programs/services, initiatives and discuss collaborations. She has met with Tioga County school superintendents, Rural Health Network, and Council of Governments to date.
- Another Strategic Plan group has sent out an Employee Engagement Survey to staff to gauge employee satisfaction.
- A few members of our Admin team met with Southern Tier Aids Program (STAP) to learn about the services they provide and how they do outreach in various communities, also toured one of their mobile harm reduction units.
- Director of Admin Services presented to Board of Health about fiscal activities.
- Two new Chevy Equinoxes have arrived, expecting two more soon.
- Quality Assurance/Improvement Committee met to review completed quarter one chart audits and present findings to Dr. Zevan (Medical Consultant).

What the Health!?

April 2024

WE ARE ALL PUBLIC HEALTH!

National Public Health Week 2024 | April 1-7

EMERGENCY EXIT VOTE Donate

IN TIOGA COUNTY, NY 21% OF ADULTS REPORTED BINGE OR HEAVY DRINKING!

OVER 8,050 NEW YORKERS DIE EACH YEAR DUE TO EXCESSIVE ALCOHOL USE!

Pick a weekend and go 72-hours alcohol free.

Use this time to look at your own relationship with alcohol. If going a short period of time without alcohol is difficult for you, you may have alcohol use disorder.

IF YOU ARE STRUGGLING WITH ALCOHOL USE:

- Talk with your healthcare provider
- See a professional experienced in alcohol treatment
- Seek help from a support group, like (AA)

Sanitary well caps keep insects, small mammals, and surface water from entering wells, preventing bacterial contamination that can make people very sick. Tioga County Public Health has a limited amount of funding available to help homeowners in Tioga County extend and/or replace their well head that are currently not up to code. Call us at 607-687-8600 to learn more about this program!

Upcoming Events:

Monday, April 8:
Solar Eclipse
 Starts: 2:08pm
 Max. Coverage: 3:23pm
 Ends: 4:34pm

Thursday, April 18:
Rabies Vaccination Clinic
 5:30pm - 7:30pm
 Newark Valley Fire Station
 Pre-Registration Required

Saturday, April 27:
DEA Drug Take Back Day
 10:00am - 2:00pm
 HHS Building Owego

Approved items for Disposal:

- Prescription & over the counter medications
- Sharps (sealed in a sharps container)

THE BEST PROTECTION AGAINST MEASLES IS **VACCINATION!**

Measles is one of the most contagious diseases in the world!

Children should receive two doses of the Measles, Mumps, & Rubella (MMR) vaccine at **12 months** and again between **4 - 6 years!**

There is no treatment for measles, and the virus can cause long-term health effects!
 Make sure your family is protected against measles! Contact your child's healthcare provider today!

Long-Term Alcohol Use Has Negative Impacts on the Body & Vital Organs!

National Public Health Week 2024 | April 1-7

We are all public health!

Civic Engagement

- Vote!
- Encourage others to vote
- Encourage workplaces and organizations to be voter-friendly
- Support inclusive voting policies that remove barriers to the ballot box

New Tools & Innovations

- Wear smart watches and use health apps
- Support increases in access to telehealth services
- Advocate for improved digital health infrastructure
- Support making broadband internet more widely available

Climate Change

- Buy less and be thoughtful about what you purchase
- Plan for disasters and emergencies
- Advocate for affordable and energy-efficient housing
- Advocate for healthy transportation and community design

Healthy Neighborhoods

- Plant Trees
- Get to know your neighbors
- Advocate for public transit
- Advocate for making broadband internet more widely available

Reproductive Health

- Get screened for cancers and tested for STIs
- Donate menstrual products to local housing shelters
- Combat discrimination in reproductive health care

Emergency Preparedness

- Build an emergency supply kit
- Have a plan
- Host a disaster training
- Mark emergency exits and practice emergency drills

Future of Public Health

- Speak for health
- Join community organizations
- Advocate for making information accessible
- Support good public health policies

Get Ready for the Total Solar Eclipse!

Monday, April 8, 2024!

PROTECT YOUR EYES

WEAR ECLIPSE GLASSES

There is only one safe way to look directly at the sun, whether during an eclipse or not - through special purpose solar filters.

These solar filters are used in "eclipse glasses."

- If you see any scratches or damage on your eclipse glasses, do not use them.
- Follow all directions that come with eclipse glasses. Help children use them correctly.
- Do not remove your eclipse glasses at any time while looking at the sun.
- The only time you can look at the sun without your eclipse glasses is when the moon completely covers the sun's bright face and it suddenly gets dark. As soon as the sun begins to reappear, immediately put your eclipse glasses back on.
- Never look at the uneclipsed or partially eclipsed sun through an unfiltered camera, telescope, binoculars, etc.

Buy only ISO 12312-2 (sometimes written as ISO 12312-2:2015) compliant eclipse glasses.

A TOTAL SOLAR ECLIPSE IS WHEN THE MOON COMPLETELY COVERS THE FACE OF THE SUN. NEW YORK STATE WILL BE AT THE CENTER OF IT ALL ON APRIL 8, 2024!

A total solar eclipse is truly a once in a lifetime experience that only occurs in the same place once every 400 years.

PREPARE FOR TRAFFIC

Tioga County is not far from the Path of Total Solar Eclipse! Please be prepared for this event, as it is expected to bring an increase of people and heavier traffic to New York State.

DRIVER SAFETY TIPS

- Don't wear your eclipse glasses while driving.
- Don't attempt to photograph or video the eclipse while driving.
- Keep your vehicle headlights on. Put the sun visor down to block your view of the sun.
- Don't pull over on the side of the road or highway to view the eclipse. Fully exit the roadway and park in a safe area far from traffic.
- Watch for pedestrians who may not be paying attention to their surroundings.
